The following statement presents the total amount spent in 2020–2021 for each transfer payment. A transfer payment is a grant, contribution or other payment made by the Government for which no goods or services are received. This information is displayed under each ministry.

This statement also provides, for each class of recipients, a detailed listing, where applicable, of the payments (i.e. cash payments and accrued charges) aggregating to \$100,000 or over to a recipient (one individual or organization). This detail shows the name and location of the recipient, together with the total amount paid. In cases where certain organizations have more than one place of business, their Head Office location was used for reporting purposes.

In addition, this statement presents, for each class of recipients, the total amount of payments to a recipient aggregating to less than \$100,000 and the total number of recipients.

Amounts reported include both internal and external expenditures. Whereas external expenditures result from transactions between the Government and outside parties, internal expenditures result from transactions involving organizations that are part of the Government of Canada as a reporting entity.

Section 6 of Volume III of the 2020–2021 *Public Accounts of Canada* presents the total amount spent as transfer payments in the current fiscal year by department and agency under each ministry.

The Children's Special Allowances (CSA) are paid in respect of children maintained by federal or provincial agencies or institutions. The monthly benefit amount equals one twelfth of the maximum monthly amount of the Canada child benefit for one dependant determined each July by the indexing provisions contained in the *Income Tax Act*. Effective July 1, 2018, the monthly amount for a child under 6 is \$541.33 and for a child aged 6 through 17 is \$456.75. For qualified children, the CSA payment may also include the Child Disability Benefit.

A full or partial basic Old Age Security pension is payable at age 65 or later to everyone who has met certain residence requirements.

A Guaranteed Income Supplement is an additional amount payable to pensioners who have little or no other income apart from the Old Age Security pension. Entitlement is normally based on income in the preceding calendar year, computed in accordance with the *Income Tax Act*. Where a married common-law couple is concerned, each is considered to have one half of their combined income.

The Allowance is payable to the spouse or common-law partner of a pensioner, and to surviving common-law partner aged 60 to 64. All recipients must meet certain residence requirements. Entitlement is based on income.

All benefits under the Old Age Security program are subject to change in January, April, July and October of each year based on increases in the Consumer Price Index.

The benefits in effect as at April 1, 2020 were as follows:

* Includes recipients of Spouse's Allowance. Please note that in response to the COVID-19 pandemic, the Canada Revenue Agency extended the deadline for filing individual tax returns in 2020. This prompted a temporary change in the process of renewing GIS and Allowance benefits from July to December 2020, resulting in a lower than actual number of beneficiaries reported on public government websites, including the Open Data Portal and Publications.gc.ca. The number of beneficiaries for the GIS and the Allowances for 2020-21 have been adjusted accordingly in this table.

** Includes Old Age Security, Guaranteed Income Supplement and the Allowance.
