## **Transfer payments**

The following statement presents the total amount spent in 2009-2010 for each transfer payment. A transfer payment is a grant, contribution or other payment made by the Government for which no goods or services are received. This information is displayed under each ministry.

This statement also provides, for each class of recipients, a detailed listing, where applicable, of the payments (i.e. cash payments and accrued charges) aggregating to \$100,000 or over to a recipient (one individual or organization). This detail shows the name and location of the recipient, together with the total amount paid. In cases where certain organizations have more than one place of business, their Head Office location was used for reporting purposes.

In addition, this statement presents, for each class of recipients, the total amount of payments to a recipient aggregating to less than \$100,000 and the total number of recipients.

Amounts reported include both internal and external expenditures. Whereas external expenditures result from transactions between the Government and outside parties, internal expenditures result from transactions involving organizations that are part of the Government of Canada as a reporting entity.

Section 6 of Volume III of the 2009-2010 Public Accounts of Canada presents the total amount spent as transfer payments in the current fiscal year by department and agency under each ministry.

In April 2004 the Canada Health and Social Transfer (CHST) was split into the Canada Health Transfer (CHT) and the Canada Social Transfer (CST). The CHT is a block-fund transfer to provinces and territories to provide financial support for the provision of health. The CST is a block-fund transfer to provinces and territories in support of post-secondary education, social assistance and social services, including early childhood development and early learning and childcare.

In 2009-2010, Finance Canada made payments of \$57.2 billion through the Canada Health Transfer, the Canada Social Transfer and other targeted federal transfers in support of health and social services. This total amount includes a tax contribution of \$21.5 billion representing the current value of a prescribed number of tax points (and the Fiscal Equalization associated with them), and a cash payment of \$35.7 billion. The amount of these cash and tax transfers in 2009-2010 is shown in the above table.

As part of the September 2004 Ten-year Agreement to Strengthen Health Care, \$4.25 billion for the first five years was provided to a trust fund in 2004-2005 for Wait Times Reduction. Beginning in 2009-2010, funding is being provided through a Wait Times Reduction Transfer of \$250 million annually, to be used primarily for both ongoing support for health human resources and tools to manage wait times.

In order for provinces and territories to receive the full cash transfer for which they are entitled, they must comply with the Canada Health Act (CHA). Under the CHA, provinces and territories that allow extra-billing and user charges are subject to mandatory dollar-for-dollar deductions. Health Canada makes decisions on when deductions are required and sends this information to the Department of Finance.

A one-time deduction of \$73,924.50 was taken from the March 2010 Canada Health Transfer payments to British Columbia as a result of extra-billing and user charges which occurred during 2007-2008 (\$69,888.50 in user charges and \$4,036 in extra-billing).

A full or partial basic Old Age Security pension is payable at age 65 or later to everyone who has met certain residence requirements.

A Guaranteed Income Supplement is an additional amount payable to pensioners who have little or no other income apart from the Old Age Security pension. Entitlement is normally based on income in the preceding calendar year, computed in accordance with the Income Tax Act. Where a married couple is concerned, each is considered to have one half of their combined income.

The Allowance is payable to the spouse or common-law partner of a pensioner, and to surviving common-law partner aged 60 to 64. All recipients must meet certain residence requirements. Entitlement is based on income.

All benefits under the Old Age Security program are subject to change in January, April, July and October of each year based on increases in the Consumer Price Index.
